2018/19 COLLECTION

After the long Swedish winter we welcome the first signs of spring with open arms.

Our 2018/19 collection of Stilleben* art cards celebrates the small things that make us happy with the first signs of spring & summer.

The arrival of a new baby, a new clay pot for a favorite plant, seasonal fruit bought at the local market or collecting sea shells on the beach; our cards celebrate life's precious moments.

Our classic minimal style prevails, in muted tones of soft pinks, greys and greens accented with harder charcoals and blues, printed on a textured, silk weave card.

We hope you get as much pleasure in sending them as I do in creating them.

Stilleben is derived from a German word used to describe a collection of everyday objects, usually depicted in still life art.*

CARD

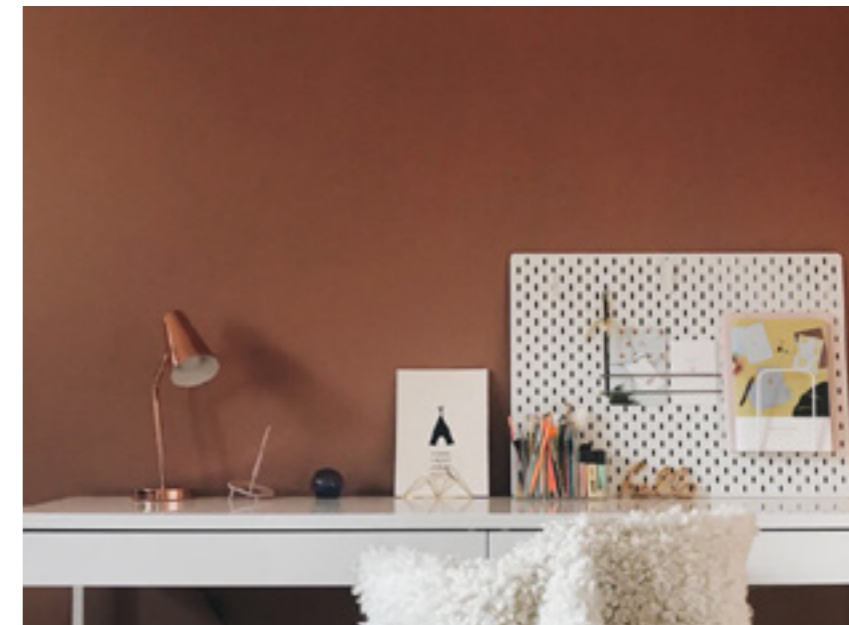

All our cards measure 105 X 148 mm and are printed on sustainable textured card stock. We aim to ensure that all of our products and packaging are recyclable or biodegradable.

PROCESS

Handdrawn by Elly, the printing process is completed both in house and by family run businesses in both Sweden and Britain.

SINGLES / BOXED SETS

All cards are available as single and/or as boxed sets of six.
